

Astrological Moon Signs (note days color coded to calender below)

<p>Aries (fire, masculine); Ram; Mars; Head; dry and barren</p>	<p>Not good for planting anything; good for cultivating, destroying noxious growth and pests, weeding and harvesting.</p>
<p>Taurus (earth, feminine); Bull; Venus; Neck/Throat; moist and fairly productive</p>	<p>Plant root crops like potatoes & bulb plants; plant flowers for hardiness, beans, cabbage, lettuce, onion sets, radish, turnip, leafy vegetables and hay; set out/plant peach, pear and plum trees; perform general garden maintenance.</p>
<p>Gemini (air, masculine); Twins; Mercury; Arms/Chest; dry and barren</p>	<p>Not good for planting anything; good for cultivating, destroying noxious growth and pests, weeding and harvesting.</p>
<p>Cancer (water, feminine); Crab; Moon; Breast/Stomach; moist and fruitful</p>	<p>Widely considered to be the most productive of all the signs and most frequently used for planting both above-ground and root crops. Plant seeds, transplant, irrigate, bud/graft. Asparagus, barley, beets, berries, bulbs, carrots, corn, lettuce, potatoes, roses, herbs, wheat, and deciduous trees do very well. Start compost heaps and worm farms when the moon is in the fourth quarter under Cancer.</p>
<p>Leo (fire, masculine); Lion; Sun; Heart/Back; the most barren and dry of all the signs</p>	<p>No planting at all during this sign, ever. Exterminate weeds and noxious growth, harvest and cultivate.</p>
<p>Virgo (earth, feminine); Virgin; Mercury; Bowels; “Bloom Days”; moist but barren</p>	<p>Good for destroying weeds and pests. <i>Vegetables will not do well if planted in Virgo</i> (big blooms, little ‘fruit’), but it is <i>a good planting sign for most flowers and vines for large bloom yields.</i> Don't plant vegetables or trees.</p>
<p>Libra (air, masculine); Balance; Venus; Kidneys; moist and semi-fertile</p>	<p>Used for planting crops where good pulp growth and roots are desirable; <i>another good sign for flowers and vines.</i> Plant seeds for hay, corn, fodder, grain. Flowers, bulbs, barley, beans, beet, cabbage, carrot, peas, squash, tubers and vines.</p>
<p>Scorpio (water, feminine); Scorpion; Mars; Loins; very fruitful and moist</p>	<p>Produces sturdy, reliable plants. Plant most vegetables and flowers for large yields; excellent time to plant beans, berries, cantaloupes, cauliflower, cereal, chicory, eggplant, peas, potatoes, pumpkin; do not dig potatoes during this sign.</p>
<p>Sagittarius (fire, masculine); Archer; Jupiter; Thighs; dry and barren</p>	<p>Some say this is a good time to plant fiery, “hot” crops such as onions, garlic, peppers, chilies and radishes (I haven't tried this theory yet); cultivate and harvest.</p>
<p>Capricorn(earth, feminine); Goat; Saturn; Knees; productive</p>	<p>Good for most planting. Plant bulbs, potatoes, root crops, beans, cabbage, broccoli, lettuce, onion sets, radishes, flowers and fruit trees.</p>
<p>Aquarius (air, masculine); Waterman; Uranus; Legs/Ankles; another barren and dry sign</p>	<p>Not good for planting anything; good for harvesting, cultivation and extermination of pests.</p>
<p>Pisces (water, feminine); Fish; Neptune; Feet; one of the most fertile signs</p>	<p>A great time for planting most types of crops, including broccoli, bulbs, Brussel sprouts, carrots, celery, chicory, cress, cucumbers, endive, horseradish, parsley, peanuts, radishes, pumpkins, flowers (for abundance) and deciduous trees.</p>
